

NORTHERN NEVADA

**HOPES**

*your partner in health.*

# Our Mission

Northern Nevada HOPES is dedicated to building a healthier community by providing coordinated care and support for individual and family wellness. Our community health center combines primary care, medical specialties, behavioral health and prevention with a team of experienced professionals who are committed to high-quality care.

# Housing is Healthcare

Homelessness and poor health have been locked in an on-going cycle of cause and effect throughout history. Because **half of all bankruptcies in the U.S. are caused by health problems, poor health puts one at risk for homelessness.** And conversely, homelessness puts one at risk for poor health, increasing public costs for hospitalization and incarceration.

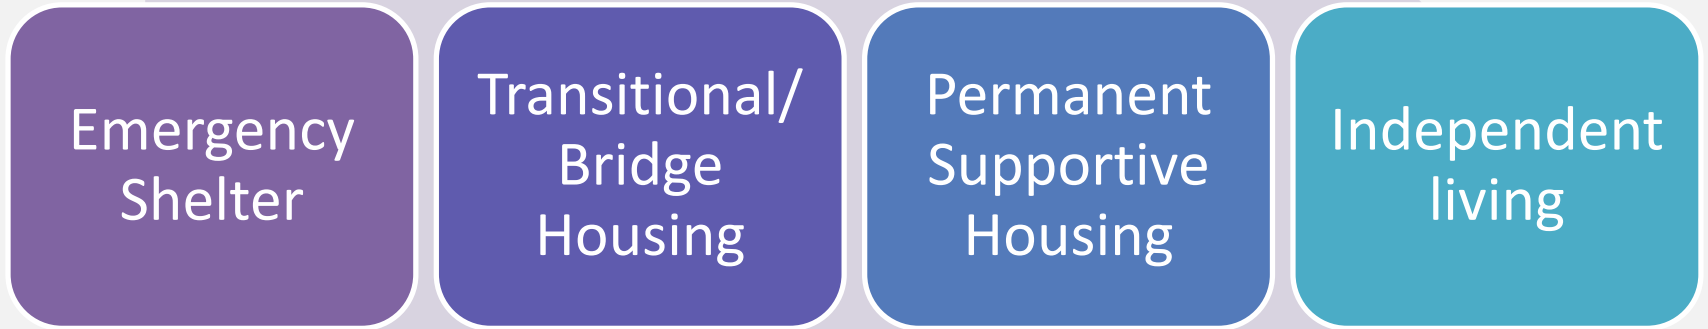

# Components for successful care

To help **empower our clients to be successful**, we incorporate 3 vital components into our programming:

1. Case management.
2. Integration of health and wellness services.
3. Understanding the spectrum of housing solutions.

# Continuum of Housing

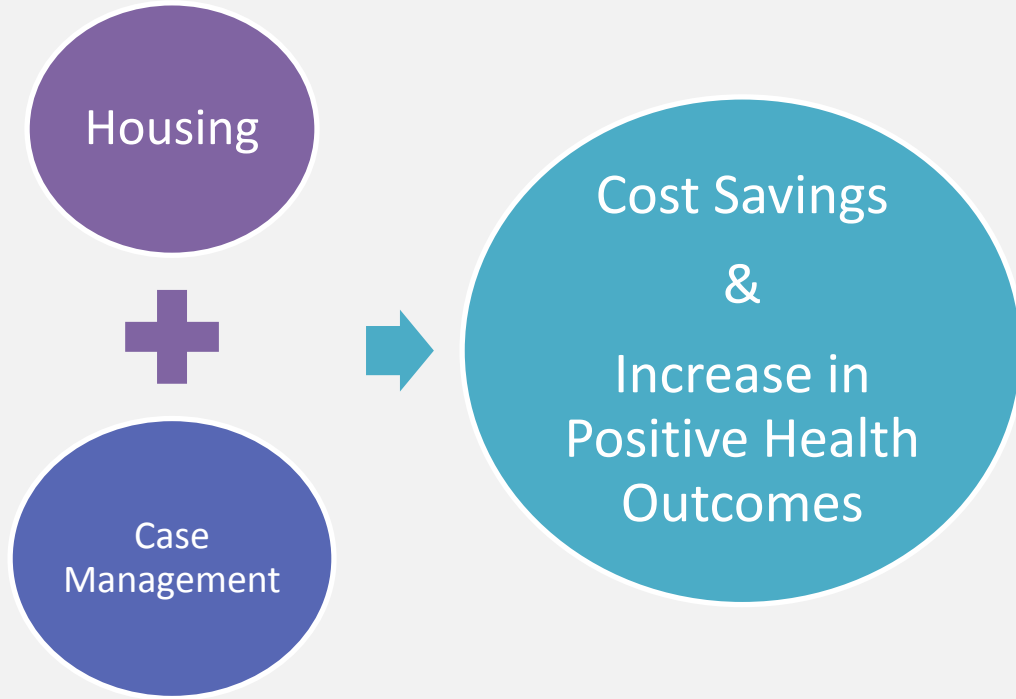

# Meet Daniel

*“Prison was sounding better and better every day. I had my own bed there. My own sink. My own toilet. I was never this depressed in prison. I never felt this hopeless and ashamed there.” - Daniel*

- HOPES Patient since 2017
- 48-year-old man
- Chronically homeless since 2009
- Struggles with anxiety and has diabetes

# Opportunity

# Call to Action

Fund – whether through waivers or otherwise – supportive services, like case management and housing. *They are are key to successful outcomes.*

**We have a responsibility to do something.**

# THANK YOU
