Over the last decade, **HOPES** has evolved from a small HIV/AIDS clinic to a robust community health center that provides cutting-edge, innovative services to thousands of northern Nevadans. Throughout our transformation, we've remained committed to our longstanding model of care – meeting people where they are, working with them to address their holistic healthcare needs, ensuring services are accessible, and that their care is delivered with dignity, kindness and compassion. The future of healthcare encompasses so much of **HOPES'** journey over the last twenty-three years. I'm honored to be a part of an organization that is leading the future of healthcare for our region.

Sincerely,

Sharon Chamberlain
CEO, Northern Nevada HOPES
